2. Term Guarantee accounts are only available for allocation at contract issue. No transfers may be made into this account after contract issue.

An annuity is intended to be a long-term, tax-deferred retirement vehicle. Earnings are taxable as ordinary income when distributed, and if withdrawn before age 59½, may be subject to a 10% federal tax penalty. If the annuity will fund an IRA or other tax qualified plan, the tax-deferral feature offers no additional value. Qualified distributions from a Roth IRA are generally excluded from gross income, but taxes and penalties may apply to non-qualified distributions. Please consult a tax advisor for specific information. There are charges and expenses associated with annuities, such as surrender charges (deferred sales charges) for early withdrawals.

Guarantees are subject to the financial strength and claims-paying ability of the issuing insurance company.

Some products and optional features may not be available in all states and features may vary by state. Not all products, features and optional benefits are available from all firms.

The applicable rates (caps, participation, trigger, etc.) for the initial Crediting Period are shown in the contract at issue. For each subsequent Crediting Period, rates will be declared at the beginning of the Crediting Period and will be guaranteed for the duration of the applicable period. Rates are subject to the maximums and/or minimums as stated in the contract.
