

eApp: A tailored, online client application

Life is a little easier with Securian Financial's eApp. Your clients only answer relevant questions based on their demographic information and can complete the underwriting questionnaire (part 2) as part of the eApp process.¹ This online solution is paperless and can provide a full digital experience from application to policy delivery.

Benefits

- Access to digital underwriting questionnaire with no need for tele-interview¹
- Lets you immediately submit application electronically
- Ensures the right forms are completed
- Links easily to the illustration
- Speeds up the application process
- Increases application accuracy²
- Offers a streamlined underwriting process
- Tailored application experience – only asks relevant questions
- Access to ePolicy Delivery

Convenience for you and your clients

- eSignatures are gathered with no need for wet signatures, scanned or mailed in paperwork
- No entering duplicate data – client information carries through entire application
- Save and return to incomplete applications at any time
- Option for client to complete underwriting questionnaire at their convenience without tele-interviewer or examiner involvement¹

Choose from 3 convenient eSignature options

With eSignature, you don't have to worry about mailing or faxing documents to clients. Select the eSignature process that works best for you:

Face-to-face

- All applicants must be present
- ID required
- Application can be eSigned immediately

eSignature combo

- Combines face-to-face method with traditional eSignature
- One or more applicants are not present
- Those available eSign immediately (ID required).
- Those not present provide eSignature via email process

eSignature via email

- Applicants do not need to be present
- An email with a link to a secured website is delivered to the applicants
- They follow a few easy steps to electronically sign the application
- Once eSigned, the application will be securely transmitted back to you. You eSign it and forward to us via a secured channel
