NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The accompanying statutory financial statements of Securian Specialty Lines, Inc. (the Company) have been prepared in accordance with accounting practices prescribed or permitted by the Texas Department of Insurance. The Texas Department of Insurance recognizes statutory accounting practices prescribed or permitted by the State of Texas for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Texas Insurance Law. Prescribed statutory accounting practices are those practices that are incorporated directly or by reference in state laws, regulations and general administrative rules applicable to all insurance enterprises domiciled in a particular state. Permitted statutory accounting practices include practices not prescribed by the domiciliary state but allowed by the domiciliary state regulatory authority. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Texas. The state has adopted the prescribed accounting practices found in NAIC SAP, without modification.

D. Loan-Backed Securities

1. Describe sources used to determine prepayment assumptions

Prepayment assumptions for single class and multi-class mortgage-backed/asset-backed securities were obtained primarily from broker dealer survey values or internal estimates when survey values are not available.

2. There were no other-than-temporary impairments (OTTI) recorded as of June 30, 2025, due to present values of cash flows expected to be collected being less than the amortized cost basis of the securities. There were no other-than-temporary impairments (OTTI) recorded as of June 30, 2025, due to management's intent to sell or inability to hold a security until recovery.

NOTES TO FINANCIAL STATEMENTS

5. Investments (Continued)

3. As of June 30, 2025, the company did not hold any securities for which an OTTI has previously been recognized.
4. Report in aggregate all impaired securities (i.e. MV<BV) for which an OTTI has not been taken (include securities that have a credit impairment when a non-recognized non-credit impairment remains)

a. The aggregate amount of unrealized losses:

1. Less than 12 months\$0

2. 12 months or longer\$0

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 months\$0

2. 12 months or longer\$0
5. In determining whether a decline in value is other than temporary, the Company considers several factors including, but not limited to the following: the extent and duration of the decline in value; the Company's ability or lack of intent to retain the investment for a period of time sufficient to recover the amortized cost basis; and the performance of the security's underlying collateral and projected future cash flows. In projecting future cash flows, the Company incorporates inputs from third-party sources and applies reasonable judgment in developing assumptions used to estimate the probability and timing of collecting all contractual cash flows.

20. Fair Market Value

- A. The fair value of the Company’s financial assets and financial liabilities has been determined using available market information as of June 30, 2025. Although the Company is not aware of any factors that would significantly affect the fair value of financial assets and financial liabilities, such amounts have not been comprehensively revalued since those dates. Therefore, estimates of fair value subsequent to the valuation dates may differ significantly from the amounts presented herein. Considerable judgment is required to interpret market data to develop the estimates of fair value. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. In determining fair value, the Company primarily uses the market approach which utilizes prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. To a lesser extent, the Company also uses the income approach which uses discounted cash flows to determine fair value. When applying either approach, the Company maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs reflect the assumptions market participants would use in valuing a financial instrument based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company’s estimates about the assumptions market participants would use in valuing financial assets and financial liabilities based on the best information available in the circumstances.

The Company is required to categorize its financial assets and financial liabilities carried at fair value on the statutory statements of admitted assets, liabilities and capital and surplus according to a three-level hierarchy. A level is assigned to each financial asset and financial liability based on the lowest level input that is significant to the fair value measurement in its entirety. The levels of fair value hierarchy are as follows:

Level 1: Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market.

Level 2: Fair value is based on significant inputs, other than quoted prices included in Level 1 that are observable in active markets for identical or similar assets and liabilities.

Level 3: Fair value is based on at least one or more significant unobservable inputs. These inputs reflect the Company’s assumptions about the inputs market participants would use in pricing assets or liabilities.

NOTES TO FINANCIAL STATEMENTS

20. Fair Market Value (continued)

The Company uses prices and inputs that are current as of the measurement date. In periods of market disruption, the ability to observe prices and inputs may be reduced, which could cause an asset or liability to be reclassified to a lower level.

Inputs used to measure fair value of an asset or liability may fall into different levels of the fair value hierarchy. In these situations, the Company will determine the level in which the fair value falls based upon the lowest level input that is significant to the determination of the fair value.

1. The following table summarizes by level of fair value hierarchy the financial assets and liabilities measured and reported by the Company at fair value as of June 30, 2025:

	Level 1	Level 2	Level 3	Net Asset Value NAV	Total
Cash Equivalents					
Money Market Mutual Funds	\$4,649,986	\$ -	\$ -		\$4,649,986
Bonds

Common Stocks					
Industrial & Misc	-	-	-		-
Total assets at fair value	\$4,649,986	\$ -	\$ -		\$4,649,986

2. Not applicable - no level 3 assets or liabilities
3. Transfer of securities among the levels occur at the beginning of the reporting period.
4. The majority of Level 2 securities prices are obtained from pricing services and are reviewed and corroborated by the Company. Market inputs utilized in the pricing evaluation typically include benchmark yields, issuer spreads, reported trades, estimated cash flows and prepayment speeds, and collateral valuations.
5. Not applicable - no derivative assets or liabilities

B. Not applicable

- C. The following table summarizes by level of fair value hierarchy the aggregate fair value of all financial assets and liabilities held by the Company as of June 30, 2025:

Risks

The Company’s financial statements are based on estimates and assumptions that are subject to significant business, economic and competitive risks and uncertainties, many of which are beyond the Company’s control or are subject to change. As such, actual results could differ from the estimates used in the statutory financial statements and the value of the Company’s investments, its financial condition and its liquidity could be adversely affected. The following risks and uncertainties, among others, may have such an effect:

- Economic environment and capital markets-related risks such as those related to interest rates, equity markets, credit spreads, real estate, and derivatives.
- Investment-related risks such as those related to valuation, impairment, and concentration.
- Business and operational-related risks such as those related to claims experience, reinsurers and counterparties, liquidity, ratings, competition, cyber or other information security, fraud, and overall risk management.
- Catastrophic and pandemic event-related risks that may impact policyholder behavior and claims experience, volatility in financial markets and economic activity, and operations.
- Acquisition, disposition, or other structural change related risks.
- Regulatory and legal risks such as those related to changes in fiscal, tax and other legislation, insurance and other regulation, and accounting standards.

The Company actively monitors and manages risks and uncertainties through a variety of policies and procedures in an effort to mitigate or minimize the adverse impact of any exposures impacting the financial statements.
